Cornerstone Academy Summer Programs 2024

Elementary Summer Program For Grades 2-6 (in Fall 2024)

• GENERAL INFORMATION •

It's important to help maintain academic progress made during the school year. The Elementary Summer Program (ESP) reinforces the knowledge and skills gained during the regular school year by providing an environment that continues the daily academic instruction of the classroom and allows students to explore their creative side as well. Students will experience the academic and creative aspects of learning that are challenging yet fun.

The students will spend each morning studying the essentials: math, reading, writing, with the purpose of maintaining and improving their skills during the summer to prepare them for greater success during the school year. Students will be tested and assessed.

In the afternoon, the students will spend time learning and applying Biblical principles and participating in elective activities. There will be an emphasis on building each child's character using Biblical principles as he or she learns to work as a responsible citizen within the classroom. Elective activities will vary for each grade level but will include arts and crafts, cooking, sewing, recreation, and music.

Field trips and/or special days will be planned during the six weeks. All field trip costs are included in the registration fee.
